

The FCC should not implement
any proposal that would lessen
Indiana's Telephone Privacy law
protections.

I work out of my home, and this law has been
a God-Send as far as reducing the number of
junk phone calls that interrupt me during the
day. Indiana's law is important to me; please
don't change it or render it ineffective.

"If you are entering over 70 characters on one line
be sure to press your carriage return to ensure proper line-wrapping."
You must be joking on this one. Do you think people are
really going to count?
